1	Overall, very prepared and super knowledgeable about the subject. Sometimes she got to detailed in methods, that it was very hard to comprehend, process, or know how to respond to her questions. I wish she would not have put students who did not know about European history on the spot. It felt like I was below the level of the graduate/international students.
2	Professor Cavaille's dedication to her students is unparalleled. I have not met a professor at this university that is more willing or more flexible in meeting with and advising her students (both at the grad and undergrad levels).
